ABOUT CORE INDUSTRIES VIETNAM CO., LTD.

Vision

With nearly **20 years of accumulated experience** by the founding team, Core Industries Vietnam is proud to be a comprehensive supply hub for manufacturing factories. Core specializes in providing testing equipment for the automotive, motorcycle, and bicycle industries, chemicals, electronics, safety and labor protection equipment, industrial automation solutions, and raw materials.

Mission

We are committed to delivering reliable partnerships, worthy of our motto: "**Your Trusted Partner.**" The trust of domestic and international partners has affirmed Core's position as an outstanding for professional service quality throughout the entire supply chain.

Core is currently the **official authorized distributor** of many globally renowned brands. Choosing Core means having a comprehensive, professional partner that helps manufacturing factories optimize operational efficiency, save resources, and focus on core business objectives.

Our Product & Service Portfolio

WHAT WE SUPPLY

Core Industries Vietnam serves as a **one-stop industrial supply partner**, covering a broad spectrum of products and solutions for manufacturing plants across Vietnam and the region. Below is an overview of our key product categories.

1. Dynamic and environmental simulation Testing Equipment

Provide state-of-the-art static, dynamic, and impact testing machines

2. Steel products & power transmission products

Steel tubes, aluminum pipes, gearboxes & gears, chains

3. Industrial Air Filtration

Dust & fume extraction system

4. Electrical Cabinets & Cable Trays

Panel boards, smart lockers, cable ladders (Hahuco)

5. Lubricants, Solar Power & Battery Storage

We supply three critical categories to ensure your facility runs efficiently, sustainably, and cost-effectively.

6. Comprehensive Surface Finishing Solutions

Powder coating lines and equipment

7. Industrial Weighing Solutions

Scales for transport, logistics & production lines

8. Automation Equipment & solutions

Palletizers, conveyors, assembly lines & inspection systems

We are strategically aiming to become the **leading MRO (Maintenance, Repair, and Operations) provider in Vietnam**. By consolidating supply chains and offering end-to-end industrial solutions

1. Dynamic and environmental simulation Testing Equipment

At **Core Industries Vietnam**, we pride ourselves on being a trusted bridge between global innovation and local industrial excellence. We collaborate with world-leading partners to provide state-of-the-art **static, dynamic, and impact testing machines**, delivering tailor-made solutions for every precision requirement.

Our Specialized Solutions

Our portfolio includes advanced environmental simulation systems and cutting-edge heat, climate, and pharmaceutical testing technologies. We empower diverse industries with reliable equipment designed to validate performance under the most rigorous conditions, including:

Thermal extremes: High and low-temperature testing.

Atmospheric simulation: Precision humidity and altitude control.

Structural integrity: High-frequency vibration and impact analysis.

World-Class Partnerships

2. Steel & Steel products & power transmission products

Steel Products

- Steel pipes & tubes (various sizes)
- Cold-rolled steel sheets
- Aluminum pipes & tubes
- Precision drawn tubes for automotive & motorcycle parts

Gearbox & Gear Products

- Worm Gearbox, Helical Gearbox, Bevel Gearbox
- Bevel Helical Gearbox, Geared Motor
- Rolling Mill Gearbox, Cooling Tower Gearbox
- VRM Gearbox, Turbine Gearbox, Pulper Gearbox
- Gears & Pinion, Internal Gears, Bevel & Spiral Gears, Worm Wheel & Worm

Industrial Chains

We've included over 1000 varieties of Roller chains in our range. From leaf chains and conveyor chains to industrial power transmission chains, corrosion resistant chains - Plated & Stainless steel, Attachment, Extended & Hollow pin, O ring & Self Lube, tiller, motorcycle drive chains and engine mechanism chains, our production is over 15 million metres annually.

3. Industrial Air Filtration Systems

CLEAN AIR · SAFE WORKPLACES

At **Core Industries Vietnam**, we prioritize the health of your workforce and the sustainability of your operations. We work with **Nederman**, the global leader in industrial air purification, to provide advanced systems that create clean, safe, and efficient working environments.

By integrating Nederman's world-class technology—bolstered by their acquisition of Dantherm Filtration—we offer solutions that focus on:

Clean Air Technology: Advanced dust and fume extraction systems to protect workers and equipment.

Resource Recycling: Efficient management of production waste and material recovery.

Eco-Friendly Management: Environmentally sustainable transport and filtration management systems.

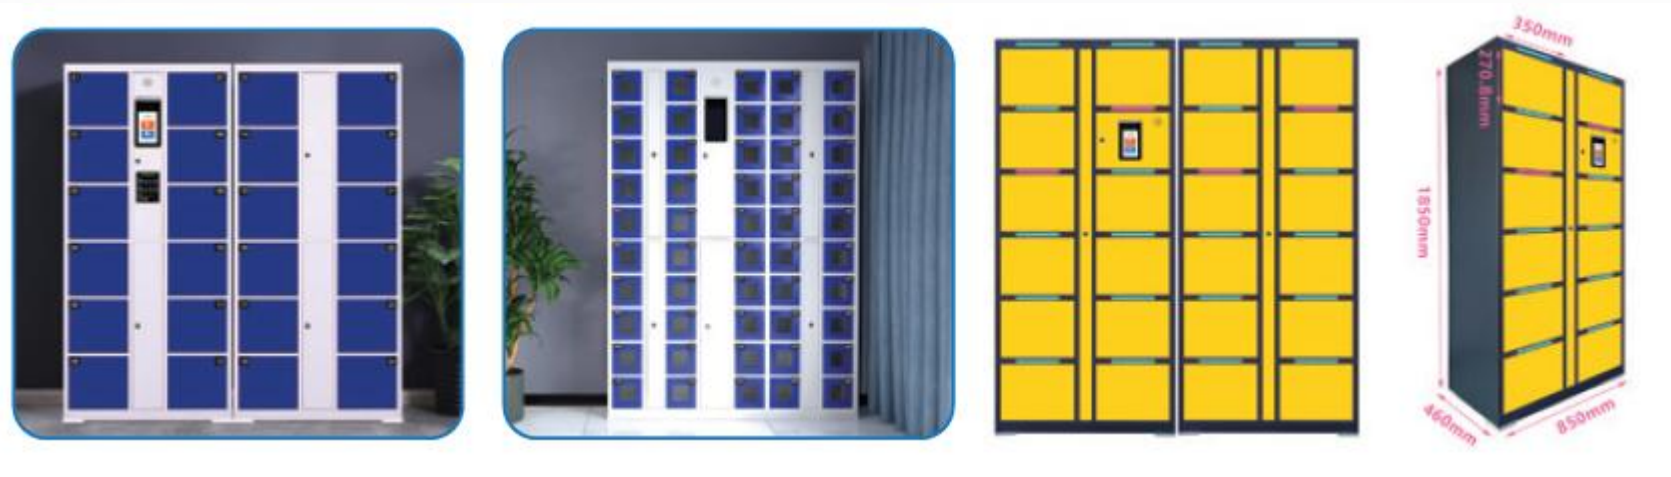

Product Range

- Capturing products: flexible hoses, rigid ducts, capturing hoods
- Industrial fans (portable, floor-standing, installed)
- Dust & fume extraction: High Vacuum, Low Vacuum, Oil Mist Filters
- Complete air filtration system design & installation

Industries Served

- Agriculture, Foundry & Smelter, Wood & Furniture
- Metal & Fabrication, Automotive (aftermarket)
- Pulp & Paper, Cement & Lime, Rubber & Tire
- Aerospace, Food, Chemical, Plastic, Panel Board

4. Electrical Cabinets, Cable Trays & Smart Lockers — Hahuco

MANUFACTURING · INFRASTRUCTURE · SMART SOLUTIONS

Hahuco specializes in manufacturing and supplying electrical panel boards, cable ladders, rack cabinets, Smart Lockers, Kiosk Stations, single-column stations, and sheet metal fabrication — with high quality and competitive pricing for both domestic and export markets. Hahuco is also a professional contractor for power station and electrical system installation in factories, urban areas, and industrial zones.

Cabinet Products

- MSB Cabinets, DB Distribution Cabinets, CP Cabinets
- ATS Cabinets (installed after transformer, before DB)
- CRP Protection Control Cabinets (up to 500KV)
- Outdoor Electrical Cabinets
- Rack Cabinets (server/data center)

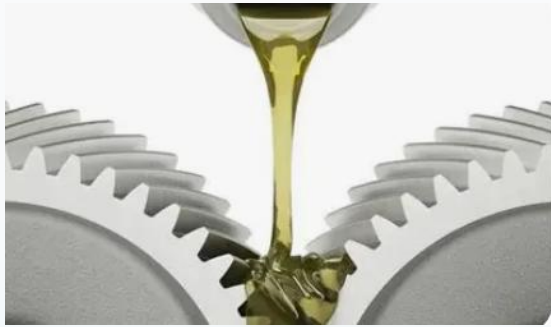

Smart Locker & Cable Management

- **Smart Lockers:** Powder-coated steel, adjustable compartments, integrated display, barcode scanner, RFID reader — for offices, supermarkets, airports, shopping centers
- **Cable Ladders:** 0.8–2mm thickness, powder-coated or hot-dip galvanized
- **Cable Trays:** Multiple profiles (flat, flanged, hat section, Z-section)
- Kiosk Stations & Single-Column Stations

5, Lubricants, Solar Power & Battery Storage

COMPLETE FACTORY SOLUTIONS

Beyond our core product lines, **Core Industries Vietnam is your single-source partner for all factory operational needs.** We supply three additional critical categories to ensure your facility runs efficiently, sustainably, and cost-effectively.

Lubricants & Oil

We supply a comprehensive range of **industrial lubricants and oils** for machinery, gearboxes, hydraulic systems, compressors, and production equipment. Sourced from leading global brands, our lubricants help reduce wear, extend machine life, and maintain peak operational performance across all types of manufacturing environments.

Solar Power Systems

Core Industries Vietnam provides **end-to-end solar power solutions** for factories and industrial facilities — from system design and equipment supply to installation and commissioning. Reduce your electricity costs, lower your carbon footprint, and achieve energy independence with our rooftop and ground-mounted solar PV systems tailored to your factory's energy demands.

Battery Storage Solutions

Complement your solar installation or stabilize your factory's power supply with our **industrial battery energy storage systems (BESS)**. Our solutions store excess energy, provide backup power during outages, and enable peak-shaving to reduce demand charges — ensuring uninterrupted production and greater energy resilience for your facility.

6, Comprehensive Surface Finishing Solutions

COMPLETE FACTORY SOLUTIONS

Beyond our core product lines, **Core Industries Vietnam is your single-source partner for all factory operational needs.**

We deliver **end-to-end surface finishing solutions** meticulously tailored to meet the rigorous demands of modern industry. Our expertise spans the entire coating spectrum, ensuring that whether you require high-volume automation or specialized batch processing, your production line achieves peak performance and finish quality.

Our Core Coating Systems

We offer a versatile range of coating lines designed for durability, precision, and compliance:

Automatic Powder Coating Lines: Engineered for high-throughput and consistent finish quality.

Manual Powder Coating Lines: Ideal for flexible, small-batch production and complex geometries.

Specialized Lines: Including **Powder Dipping**, **Liquid Coating**, and high-performance **E-Coating lines** compliant with international automotive-grade standards.

Precision Equipment & Technology

To ensure a flawless finish, our systems are integrated with state-of-the-art components:

Robotic Systems: High-precision powder coating robots for uniform application and reduced waste.

Advanced Booths & Ovens: High-efficiency powder coating booths and precision-controlled curing ovens.

Eco-Friendly Engineering: Our processes are optimized for high-yield output while maintaining a commitment to sustainable, environmentally conscious manufacturing.

7. Industrial Weighing Solutions

TRANSPORT · PRODUCTION · LABORATORY

Core Industries Vietnam aggregates **leading brands from the EU, China, Taiwan, and Japan** specializing in electronic scales, inspection scales, industrial scales, and laboratory balances — including **METTLER TOLEDO** and other world-class brands. We provide complete, synchronized weighing solutions for every stage of production and logistics.

Transport & Logistics

- Truck scales (axle & full-vehicle)
- Forklift-integrated scales
- Pallet & parcel scales
- Dynamic parcel scales (high-speed)
- Postal industry scales
- Hand pallet jack scales

Industrial Production

- Load cells & weight controllers
- Platform & floor scales (30–500kg+)
- Silo / tank scales (gas, liquid, solid)
- Filling & bagging scales
- Hanging scales (300kg–50 tons)
- Explosion-zone certified scales

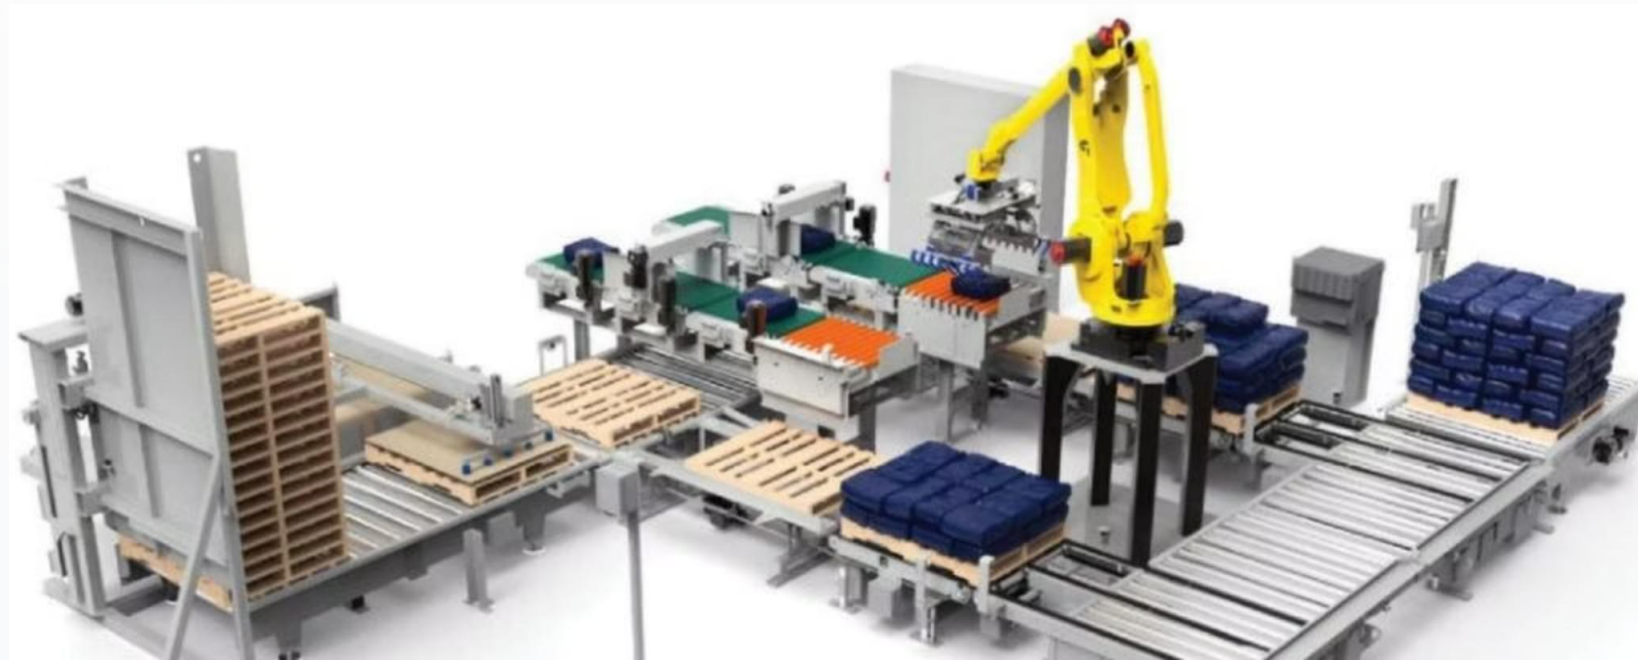

Quality Inspection Line

- Checkweighers (conveyor belt scales)
- Metal detectors
- X-ray contaminant detection machines
- Roller conveyor scales
- Track & trace / serialization systems
- Visual inspection systems (labels, barcodes, fill levels)

Laboratory & Analysis

- METTLER TOLEDO analytical balances
- Technical balances (lab & industrial)
- 6-decimal micro & ultra-micro balances
- Moisture analyzers
- Comparison standards & calibration weights (50µg–5000kg)
- Dedicated weighing software (reporting, traceability)

8. Automation Equipment & Solutions

PALLETIZERS · CONVEYORS · ASSEMBLY LINES

Core Industries Vietnam aggregates **leading brands from the EU, China, Taiwan, and Japan** specializing in automation equipment and solutions for manufacturing factories. Our experienced engineering team provides consultation, design, and custom machine fabrication to improve production lines, product testing lines, and ensure product quality compliance.

Palletizing Systems

- Standard pallet stacking machines
- High-speed palletizers
- Robotic palletizers
- 3-axis palletizers
- Automatic pallet supply machines
- Safety fencing for palletizing zones
- Handles boxes, bags, and drums/barrels

Conveyor & Assembly Systems

- Free flow, belt, diverter, roller, slat, plastic chain conveyors
- Custom automated assembly stations
- Product visual inspection (camera-based)
- Robotic automation applications
- Sanitation / cleaning equipment stations
- Data integration with factory management systems
- Consultation, design & custom machine manufacturing

Partners & Representative Customers

Core Industries Vietnam is proud to serve and partner with leading domestic and international organizations across automotive, electronics, food & beverage, logistics, and heavy industry sectors.

Thank You

"We sincerely thank you for taking the time to review our comprehensive product and solution portfolio. Your trust in our products drives our dedication toward excellence."

In these pages, we have summarized not only the breadth of our solutions — testing equipment, steel products, air filtration, electrical cabinets, packaging, foam & insulation, weighing systems, automation, **lubricants & oil, solar power, and battery storage** — but also our unwavering commitment to innovation and quality.

Your engagement is the foundation of our growth. The insights you gather from this profile shape our future efforts. **Thank you for being an indispensable part of our journey toward industrial excellence.**
